SUMMER CREDIT COURSES 2022

Dear Parents and Guardians,

This summer, TCPS High School will be offering the summer credit courses listed below for students entering Grade 10, Grade 11, or Grade 12 next year. These courses are full 110-hour Ontario Ministry courses and will be included on student transcripts.

Students may choose one course only which will begin on **June 29, 2022 and conclude on July 29, 2022**. Classes will run every day, from Monday-Friday, 8:30am-1:30pm. Given the current pandemic circumstances, both in-person learning, and remote learning programs will be offered for all courses.

The cost to TCPS students is \$850 per course.

Please note that SPH3U (Grade 11 Physics) will be offered at **NO ADDITIONAL COST** for students registering or already registered in the Town Centre Full IB Diploma Program.

Should you be interested in registering for a summer credit course, please complete the attached form and return to Ms. Hajra (leepy.hajra@tcphs.com) by **Friday, April 1, 2022**. These courses require a minimum number of students to run and are therefore not guaranteed at this time. Once student responses are received, a follow-up communication will be made to confirm which courses, with sufficient enrolment, will be offered this summer.

Please feel free to contact the High School Office should you have any questions.

Sincerely,

Leepy Hajra
High School Principal
Town Centre Private Schools

Summer Credit Courses 2022:

SPH3U – Grade 11 Physics (university preparation)

- Offered to students entering Grade 11 or Grade 12 next year.
- Prerequisite SNC2D.
- Beneficial for students in the full IB Diploma Program, as well as for students interested in all 3 sciences who wish to “spread out” their learning so as not to be overwhelmed during the regular year.

CHC2D – Grade 10 History

- Offered to students entering Grade 10 next year.
- No prerequisite.
- Beneficial for students who wish to improve their critical thinking, research, and writing skills which are essential in senior courses and beyond.
- Completion of this CHC2D compulsory credit during the summer, would allow students to enroll in a Learning Strategies course next year. The Learning Strategies course is designed to develop cross-disciplinary skills and enhance academic performance.

MCF3M – Grade 11 Functions and Applications (college preparation)

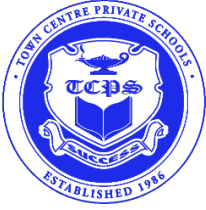

- Offered to students entering Grade 11 next year.
- Prerequisite MPM2D/MFM2D.
- Particularly important for students who wish to further strengthen and develop their math skills **before** studying MCR3U in the regular Grade 11 year. MCR3U is a prerequisite course to all Grade 12 math courses needed for university admissions.
This course, MCF3M, will “bridge the gap” between MPM2D and MCR3U.
- This course is not open to students who have completed MCR3U.

HZB3M – Grade 11 Philosophy (university/college preparation)

- Offered to students entering Grade 10, Grade 11, or Grade 12 next year.
- No prerequisite.
- Beneficial for students who wish to improve their critical thinking and writing skills. This course will also help full IB Diploma students prepare for the Theory of Knowledge requirement.

AMM3M – Grade 11 Music and Computers (university/college preparation)

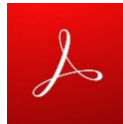

- Offered to students entering Grade 10, Grade 11, or Grade 12 next year.
- Prerequisite AMU1O.
- Beneficial for students who wish to explore music through computer, MIDI, and synthesizer technology. Students will have the hands-on experience of using computers for creative exploration, composition, and performance.

High School Summer Credit Course Registration Form

To complete the following registration forms please follow the instructions below:

1. If you do not have Adobe Reader on your device, please download it at:

2. Open the form using Adobe Reader and then **save it as new document** as your child's first and last name.
3. Complete all fields in the registration form, **save it again** and then email it to: **leepy.hajra@tcphs.com**
